

Town of Pawlet  
Driveway Specifications

- #1-Driveway width is to be at least 12 feet wide for single dwellings.
  - #2-The driveway entrance is to be 90 degrees to The Town Highway.
  - #3-The driveway shall pitch at least 1% away from the Town Highway for at least 20 feet.
  - #4- The driveway shall be obstruction free for at least 30 feet in all directions for safety.
  - #5-The driveway culvert size shall be determined by the Highway Foreman or the Selectboard, but the culvert shall not be less than 15 inch in diameter.
  - #6- All culverts shall have stone placed around both ends for the culverts protection.
  - #7- All multiple lots shall have one common access to the Towns Highway, where ever possible.
  - #8- A minimum of 15 inches of approved gravel shall be placed over the culvert.
- Please see diagram below:
